

15 October 2021

Hi there Paul

Just letting you know that I have the new Hydrosmart system up and running
When I first set it going I had a slug of orange coloured water out of the water
to the troughs

Which is now all clear 👍👉

It's going to be interesting to see how the lawns around our house look like
when we start irrigation on them 😞 they used to get very saline effected by
the end of the season 😞👍

Thanks for your help
Have a great day 👍
