To: info@hydrosmart.com.au

Our Hydrosmart is working really well, our lawn is flourishing!.

Growing vegetables with good results, grew broad beans and peas and silverbeet overwinter and have now planted tomatoes for summer. Some have fruit on already! And all with Hydrosmart water. Amazing!

Best 50th birthday present!

When I think how barren my farm garden was 1 year ago and how green it is now, I am amazed and very grateful.

Thanking you, Marie Leach
